**Our ambition:** ECER Network 19 provides a space for researchers interested in educational ethnography, at all career stages. Our ethnography zoom sessions aim at facilitating dialogue, particularly concerning methodological innovation, ethnographic research ethics, and ethnographic insights into different fields of education.

**What you can expect:** Our zoom sessions create a space for dialogue on ethnographic methods and practice. Participating in a zoom session, you will meet an educational ethnographer presenting their current work. You will have an opportunity to discuss with fellow ethnographers after the presentation and get into dialogue with the presenter.
