

Innovation Hub
INKLUSION
Netzwerk Inklusion und DBR

With a keynote
speech by Mel
Ainscow

Online Conference

Developing inclusion together with the design-based research approach

Keynote: Prof. Dr. em. Mel Ainscow (University of Manchester, UK)
„Developing inclusive education systems: the role of research and researchers“

am 29.11.2024
von 9 bis 15 Uhr

These projects present themselves together:

- **PAS-SEL/SeGEL-Sek1** – The SeELe Learning Ladder: How teachers, students and researchers work together to develop lessons to support self-regulated social-emotional learning
- **DiPoSa** – Initial and further training in science and social studies teaching: How experienced teachers and researchers work together to develop innovative strategies to support didactic-diagnostic action in inclusive (subject) teaching
- **L-Of-esE** – Forms of organizing school learning in the area of emotional and social development: How multi-professional teams jointly implement multi-level prevention in the school context
- **InSchul²** - Internal and external structures of the school climate in inclusive school development: Creating inclusive development spaces - sustainably developing practice
- **DiaGU** - Support-related diagnostics for the design of inclusive, internally differentiated, adaptive teaching settings: Together with schools on the way to an index for support-related diagnostics

You can register
for the online
conference here

The link to the conference will be sent to the e-mail address provided a few days before the conference

Informationen:
The Innovation Hub Inclusion is a joint project of
Leipzig University, PH Ludwigsburg und Universität of
Cologne
